

Description

Metal accessory with welded rungs for 90° horizontal bends in installations with Megaband® Marine ladder. Of 40 mm height, Width 200 mm, With GC protection system, HDG finish. It allows turns and changes of direction to be made very easily. Available in various protection systems.

Advantages

CE certified in compliance with the low voltage directive 2014/35 / EU

Available in widths from 200 to 1000 mm depending on the protection system. It has wide fixing options.

It allows you to create 90° angle bends, making changes in direction in the installation layout.

SAFECu Protection system, copper-plated treatment, which confers hygienic properties by eliminating bacteria, viruses and fungi

Z-shaped and symmetrical crossbars, allowing the curve to be installed in any position. They also have multiple holes that facilitate the fixing of the cables.

Applications

Suitable for installation in small spaces. Routing, Protection and Distribution of cables in electrical installations in the Naval Industry, Ships, Offshore Platforms, Port: and Maritime applications.
