

Side Joint Plate (Ref: 64010041)

1/4

Description

Metal side joining piece in various Protection Systems for the assembly of different sections of Rejiband trays. With EZ protection system, EZ3 finish. Excellent adjustment with maximum load values, ensuring mechanical strength of the joint and electrical continuity, according to IEC61537 standard. For the installation of trays, the connecting plate is installed on the side of the tray and connected by means of the Rejiband Part Clamp. It is an accessory for the assembly of Rejiband trays, made of steel and available in different Protection Systems.

Advantages

Suitable for trays 60 to 600 mm wide.

Available in various protection systems: EZ, BC, GC, high resistance BK C8 and passivated stainless steel AISI 316.

Reinforces the joint between different sections of the tray with the use of the Rejiband fixing.

Side connection for Rejiband trays.

Applications

Suitable for the joining of straight sections of Rejiband tray in all types of wall or ceiling mounted electrical installations.
