

Light Duty Channel 41x21

Description

Metal channel 41x21 mm and 1.5 mm thick for the support of Rejiband® wire mesh trays, Pemsaband® sheet trays and Megaband® ladder in cable management installations. It allows the construction of various types of suspended wall and support structures etc. Made of steel and with PG Protection System.

Advantages

Versatile way to simplify the installation of horizontal supports.

It facilitates ceiling installations of sections of tray for cable management.

It has multiple holes that facilitate the connection possibilities.

CE conformity to directive 2014/35 / EU.

PG protection system, according to BS-EN-10142, suitable for indoor installations in industrial environments. Corrosion resistance class 3.

Applications

Suitable for the creation of support structures for indoor installations of Rejiband® and Pemsaband® trays and Megaband® ladder in electrical wiring and / or telecommunications in a dry atmosphere without contaminants.

Solutions

OFFSHORE, PORTS TUNNELS INFRASTRUCTURES
